To Whom It May Concern,

I am a Full Stack Web Developer and Technical Trainer at Centriq Training. At Centriq, we provide an opportunity for individuals to obtain the fundamental knowledge and skills necessary for the pursuit of a new career in development. This letter aims to speak to the character, work ethic, and ability of an exceptional student in our program, Michael Tullis.

Throughout our intensive eight-month program, Michael has continually demonstrated excellent work ethic and a genuine dedication to the refinement of his skills as a developer. He produces high quality work, adheres to the principles of clean, well-documented code, and consistently delivers assigned projects by – and often before – their assigned deadlines.

While studying at Centriq, Michael has created several noteworthy applications. Our first assigned project for new students is the creation of a static web application, created and styled from scratch without the use of Bootstrap or similar existing frameworks. Michael's project was truly exceptional, exhibiting thoughtful design and quality well above his peers. This not only served to demonstrate Michael's skills with front-end development, but also set the tone for his continued success in the program.

In addition to his front-end development abilities, Michael has also shown an affinity for middle-tier development through the creation of a C# console application, a text-based adventure game ala "Zork". Michael's application featured a fun and unique theme, various custom classes and methods, and utilized a variety of logical structures to create a feature-rich gameplay experience.

To complement his knowledge and abilities, Michael possesses character of even greater value. His inquisitive nature and passion for the craft motivates his exploration of new concepts and ideas. He also demonstrates a genuine desire to make meaningful contributions in team environments, always willing to go the extra mile to assist his peers and ensure the work is completed to a high degree of quality. Michael's positive attitude, work ethic, and communication skills made him a delight to have in class.

In consideration of the numerous accolades described above, I am confident that Michael would make an excellent addition to virtually any team environment. I have no doubts that, if given the opportunity, Michael will continue to excel as a developer, produce quality work, and make meaningful contributions to the field.

Thank you for your consideration of Michael's eligibility for this opportunity and this personal account of my experience with him. If you have any questions or require additional information regarding Michael's performance, ability, or character, please do not hesitate to contact me.

Regards,

Evan Whittaker

To Whom It May Concern,

I am writing this letter of recommendation for Mike Tullis. Although my only interactions with Mike have been in my Statistics class, I can say that Mike was an excellent student whom was engaged and made the class better with his participation.

Statistics is not an easy course and Mike showed dedication and intelligence that I am sure will carry over into his work life.

Sincerely,

Leon Alpert 

Visiting Professor of Economics and Mathematics

Lee Brostrom
Visiting Professor
DeVry University
10/21/2020

I am writing this letter of recommendation at the request of Michael Tullis.

Michael was in my Senior Projects class at DeVry University from September- October 2020. Michael's work was outstanding in all areas of the class. He was always interested in learning new areas of web design and development.

Michael did a great job of completing his portfolio and presentation video.

Besides his work on his portfolio, Michael did very well in the discussion forums. His discussion posts were well thought out and well stated

I highly recommend Michael as he is a talented designer, an extremely hard worker, and a quick learner. If you should ever need any additional information you can contact me at 909-374-8369 or by email at lbrostrom@devry.edu anytime.

Sincerely,

Lee Brostrom
Professor, DeVry University

Re: Mike Tullis

To Whom It May Concern:

I am honored to be writing to you about Mike Tullis. Not only have I had the benefit of working with him for the past few years, but we have become friends. His big heart, his passion for life and his generous personality are strengths that he carries not only in his personal life, but also in his professional one.

In summary, I recommend Mike for any position or endeavor that he may seek to pursue. He will be a valuable asset for any organization and he will be missed here.

If you have any questions, please do not hesitate in contacting me directly.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Kim Caddell', is written over a faint, larger version of the same signature.
